The Essential Edmund Leach

Volume 1: Anthropology and Society

Volume 2: Culture and Human Nature

Edited by Stephen Hugh-Jones and James Laidlaw

These two volumes present a thought-provoking selection of writings by the brilliant anthropologist, Edmund Leach (1910-1989).

Leach saw anthropology as a broadly based study of the human condition with direct and practical importance to social policy and debate. The works reproduced here—many difficult to obtain and several published for the first time—display the impressive range of Leach's professional and popular interests. $45.00 each volume
